Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The examiner has reviewed Applicant's remarks and supporting affidavit filed May 25, 2010 and found the arguments regarding the rejection under 35 USC 103(a) over Rogers, Burgoyne, and Kahn persuasive. Applicant convincingly argues that the calculations provided by Dr. King in combination with other factors, including the structural difference between plasmid DNA and genomic DNA as well as the presence of non-target DNA and proteins, establish that one of ordinary skill in the art at the time of invention would not have had a reasonable expectation that plasmid DNA could be efficiently isolated from a matrix when released onto the matrix from (i.e. in the presence of) a host cell (see remarks pg. 11-12; King Affidavit pg. 7-8).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
